FINANCIAL DEPARTMENT.

No. 11.

FROM THE BUDGET AND AUDIT COMMITTEE,**To C. H. LUSHINGTON, Esq.,***Secretary to the Government of India,**Financial Department.**Fort William, the 22nd February 1861.*

SIR,—In continuation of paragraphs 6 to 11 of our Report, No. 5, of the 15th October last, in reference to the incorporation of the Accounts and Audit of the Postal and Electric Telegraph Departments with the general system now approved and sanctioned by the Supreme Government, we have the honor to transmit copies of communica-

* No. 1773, of 7th December 1860. tions* received
No. 8539, of the 19th January 1861. from the Direc-

tor-General of the Post Office in India, and from the Superintendent of Electric Telegraphs in India, regarding this matter. We have also to add that we have communicated personally with both these Officers (Mr. Riddell, and Major Douglas), and also with the Post Master General of the North-Western Provinces, Dr. Paton. We have now to submit our report regarding the carrying out of the principles already recommended by us in our letter No. 5, of the 15th October 1860, and sanctioned by Government in your letter No. 10698, of the 20th idem. That principle is that the accounts of both these Departments shall, after due preparation in the respective Departments, be subjected to separate and independent audit.

2. In reference to the Post Office Department, we were at first of opinion that the accounts of each Deputy Post Master in charge of a Post Office should be transmitted direct to an independent Examiner acting under the Imperial Audit Board, instead of being transmitted, as heretofore, to the Post Master General. The Director-General of Post Office in India so far concurred in that principle as to consider that the accounts of each Post Office, instead of being sent to the Post Master General, should be sent direct to the Presidency. But Mr. Riddell urges that these accounts, before being subjected to independent examination by an Officer under the Audit Board, should first be examined, and, if necessary, corrected and completed in the Director-General's Office. Mr. Riddell apprehends that as the various Deputy Post Masters receive inferior pay and cannot, therefore, be highly trained officials, their accounts will often be erroneous and defective. These defects would cause much trouble when detected by an independent Examiner; whereas they might all be, in the first instance, rectified in the Office of the Director-General before the accounts were finally submitted for independent examination and audit. Mr. Riddell, therefore, is anxious to have a Compiler appointed in his own Office, to whom the accounts would, in the first instance, be submitted by the several Deputy Post Masters, and by whom the said accounts would be primarily examined, and, if necessary, rectified, and then transmitted, in return, with vouchers and explanation, for independent audit.

Considering all the circumstances of the case, we would admit this proposal, in addition to the proposals already submitted by us; and we recommend that the Director-General be allowed a Compiler on a salary not exceeding Rupees 500 per mensem, whose duties would be such as those already described. In his letter No. 570, of the 18th June last, Mr. Riddell shewed how the cost of centralizing the accounts of the Department might be met by savings. He would manage to provide for the Compiler's salary, without a net increase. At all events, the increase, if any, would be trifling, and would be desirable in consideration of the object in view.

3. In respect to the Electric Telegraph Department, Major Douglas would desire to retain the audit of Departmental accounts, as much as possible, within the Department itself. We still however, consider it absolutely necessary that the principle of the accounts of every Department being audited by independent agency, must be carried out for the Electric Telegraph, as much as for every other branch of the service. The arguments adduced by Major Douglas appear to us to be precisely the same as would be urged by any Department which might desire virtually to exercise the power of auditing its own accounts. And we think that whatever control the Superintendent General may desire to exercise over Departmental finance will be amply provided for by the appointment of a Compiler similar to the Compiler which we have already recommended for the Post Office Department. At present the accounts for each Executive Telegraph Office are sent to the Superintendent of the Circle, who sends them on for audit to the Superintendent-General. We recommend that the accounts be sent by the Officer in charge of each Telegraph Office to the Superintendent of the Circle, who is a responsible Officer, and will be able to check many charges peculiar to the Department, which cannot otherwise be checked so well. The Superintendent of the Circle can then send them to the Compiler at Head Quarters, who will transmit them, *in extenso*, with vouchers, to an independent Examiner acting under the Imperial Audit Board.

4. In both Departments, Post Office and Electric Telegraph, the Compiler subordinate to the Departmental Chief should, we submit, be distinctly recognized as Departmental Examiner and Sub-Auditor, responsible for not permitting unauthorized expenditure.

5. We recommend that this system apply equally in both the Post Office and the Electric Telegraph Departments, to fixed charges as well as to contingent charges. The fixed charges, comprising salaries, cannot well be subjected to pre-audit, the Audit authority being often at a great distance, without causing delay and inconvenience. If it were said that these charges might be pre-audited by the local Civil Paymaster, still we should not recommend that this latter alternative be adopted, as it would cause delay, and a multiplication of accounts. Nor, in connection with the subject referred to us in Government letter No. 6968, of 11th August 1899, should we advise that the cost of Establishments for the Electric Telegraph Department be limited separately for each Circle, District, or Sub-District. The only limit, consistent with the efficient working of the Depart-

ment, seems to be the general one for the cost of the entire Establishments in India.

6. We would recommend that the charges in the Electric Telegraph as well as the Post Office Department be paid, subject to the checks of the Budget, and *monthly* Estimates of Cash requirements, and of post-audit. Both fixed charges and contingencies, for instance, might be paid within the limits of the sanctioned Estimates, on the countersignature of the Post Master General, and of Superintendent of Electric Telegraph Circle, respectively. We would recommend also that every Officer having contingent disbursements should receive a distinct advance permanently, say (50) fifty Rupees per mensem. He would not account for this while holding office, but it would constitute his permanent stock in trade, and instead of setting off each cash contingent bill, as it was passed, against the advance, he would obtain payment of it, and apply his advance to further payments as necessary. On leaving his appointment, he would have to pay 50 Rupees to his successor, or account for the amount.

7. For the examination of the accounts transmitted from the Post Office and Electric Telegraph Departments, we recommend that an independent Examiner be appointed. This Officer would be immediately subordinate to the Audit Board, and should receive such a salary, and occupy such a *status*, as would offer every inducement for the work being done thoroughly well. One Examiner might manage the detailed audit for both these Departments, and would transmit abstracts to the Auditor-General. We believe that a salary of 800 Rupees per mensem will suffice. We hope the cost may be met by re-arrangement of other Establishments. But under any circumstances, it would be necessary to incur the charge for the due auditing of the accounts of two Departments, of which the aggregate expenditure must be considerable, and in which financial economy may be materially promoted by efficiency of audit.

8. We observe that Major Douglas deprecates the audit of the Post Office and the Electric Telegraph accounts being both done by the same Officer. But as the audit is independent, the Departmental authority can have no concern in the method or the means by which such audit is conducted. The audit of one Department alone might not furnish sufficient work for one Officer, and instances are frequent in all branches of the service, of one Officer auditing the accounts of two or more Departments. In fact, any reasonable objection which Major Douglas could entertain will be met by the proposition we have made for the appointment of a Departmental Compiler.

9. It only remains to notice one point in the Electric Telegraph Department, namely, the system of cash payments for messages sent on the Public Service. It was thought that if an Officer or a Department had to pay for a message, and had to charge the amount in a contingent bill liable to audit, there would be greater care exercised in sending the message, in considering its actual necessity or otherwise, and in the length of the communication; and that thus economy would result. We cannot, however, discover that this result has been in the least degree attained. On the other hand, we apprehend that the rule of cash payment is open to serious objection. Cash is received for this purpose by every Department from the Treasury, and is again paid into the

Electric Telegraph Office. This constant passing of cash from hand to hand is very objectionable. The substitution of stamps would, no doubt, remove some of these defects; but still there would remain an objection, as the service stamps would be liable to mis-appropriation. We would submit that it will be preferable to devise a plan whereby the responsibility of the Officer sending the message may be fixed, without the actual payment of cash, and that thus the real object of the cash system may be secured. With this view, we would suggest that a receipt book be established in the form appended to this letter to be kept by the Telegraph Office. This book would contain a form of receipt and a check margin. The Telegraph Office, on receiving the message, would enter the number of words and the cost of the message, and having signed the receipt, would transmit it to the Officer sending the message.

10. The Telegraph Office would submit to the Examiner of Telegraph Accounts, monthly, a separate statement of all receipts so issued, properly classified and debited to each Department. On the other hand, the several Offices sending messages will submit all receipts obtained by them from the Telegraph Office as above described, as vouchers. By means of these receipts, the Examiner will check the lists received from the Telegraph Department, and will bring to notice any Department in which the number and extent of messages may appear excessive. This plan would, we think, meet the requirements of the case, and would ensure the charges incurred by each Department for telegrams being strictly examined, and would ensure all the purposes of the cash system, without being open to any objection in practice.

MILITARY DEPARTMENT.*Fort William, the 1st March 1861.*

No. 170 of 1861.—His Excellency the Governor General in Council is pleased to appoint Lieutenant and Brevet Captain G. B. Malleon, of the 33rd Regiment Native Infantry, to be Secretary to the Special Commission convened under Government General Order No. 156, of the 26th February 1861, to consider and report on the arrangement connected with the Amalgamation of the Indian Army with the British Forces.

Fort William, the 4th March 1861.

No. 171 of 1861.—From references which have come before Government there is manifestly a confusion in the minds of some Officers between the Military Finance Commission and the now existing Military Finance Department.

The Governor General in Council desires again to call to the attention of all Departments* concerned the position and functions of the Military Finance Department, as detailed in the Resolutions of Government dated 6th July and 16th November 1860.

No. 119, dated 16th November 1860.

Fort William, the 5th March 1861.

No. 172 of 1861.—The following Resolution is published for general information and guidance:—

Military Department, 5th March 1861.

Resolution.—His Excellency the Governor General in Council has had under his consideration the letters and reports in which the Military Finance Commission discuss the question as to the number of Horses which it is necessary to keep up for the permanent Establishment of the Mounted Corps of the Army.

Owing to the number of men who are in Hospital, or on duty which does not allow them to turn out on Parade, or who are otherwise incapacitated from attendance, the number of Horses required to mount every available man in a Dragoon Regiment is always considerably below the number of men borne as effective on the Returns, and, if a Regiment has to proceed on active service, the difference is of course increased when there are large numbers of Horses supernumerary to the actual requirements of the Regiment and requiring attendance in Stables.

For this reason, as well as from considerations of economy, the proportion of Horses allowed to a mounted Corps in England is always considerably below the effective strength of the men. The reasons which have of late years rendered it necessary to import Horses in unusually large numbers no longer exist. The ordinary sources of supply are amply sufficient for the ordinary wants of the Indian Army, and His Excellency the Governor General in Council has therefore resolved that a similar rule to that which obtains in England shall be acted on in India with regard to the proportion of Horses to men allowed to all Mounted Branches of the Service.

It appears that some months ago His Excellency Lieutenant-General Sir William Mansfield, with the concurrence of the Government of Bombay, ordered the Establishment of Horses for European Cavalry in that Presidency to be reduced to 10 per cent. below the effective strength of the men as an experimental measure. His Excellency the Governor General in Council has lately had the results of this experiment before him, and finds

that the Reports of Lieutenant-Colonel Shute, Commanding Her Majesty's 8th Inniskilling Dragoons, and Lieutenant-Colonel Seagar, Commanding Her Majesty's 8th Hussars, two experienced Officers of Her Majesty's Service, are so entirely favorable as to the results of the experiment in their respective Regiments, that His Excellency the Commander-in-Chief at Bombay has recommended a still further reduction, and that the proportion of Horses to be in future fixed at 15 per cent. below the effective strength of men in every Mounted Corps, whether European or Native Cavalry.

His Excellency the Governor General in Council has resolved that this proportion be fixed for the future, as the established strength of Horses in time of peace in the Cavalry of the Regular Service, whether European or Native, in India, with this further restriction that, whatever the effective strength of men, the total strength of Horses shall not exceed 500 Horses per Regiment of British Cavalry, 175 per Troop of Horse Artillery, and 120 per Battery of Royal Artillery, and 105 per Battery of Indian Artillery.

His Excellency the Commander-in-Chief in India, and the Governments of Madras and Bombay, will be requested to carry out the reduction to the extent proposed by weeding out and disposing of the least efficient Horses, corresponding reductions being also made in the number of Syces and other Attendants.

Adjutant-General.
Quarter Master-General.
Commissary General.
Superintendent of Stables.
Military Finance Department.

ORDERED that copies of this Resolution be sent to the Governments of Madras and Bombay for information and guidance, and to the Departments noted in

the margin.

The Military Finance Department will call for Returns showing the total number of Horses fit for duty at present kept up with all Mounted Corps and at the various Stud Depôts and Remount Agencies, how many will be reduced under the present orders, and what arrangements will require to be made for an adequate provision of Horses to supply probable casualties during the next two years.

No. 183 of 1861.—His Excellency the Governor General in Council is pleased to direct the publication for general information of the following Resolution:—

RESOLUTION.—With the view to dispose, as soon as practicable, of the arrears of business existing in many Offices, His Excellency the Governor General in Council is pleased to direct that all Offices in which there may be arrears shall be divided into two branches, one to be specially devoted to the bringing up of arrears, and the other to the performance of current work.

The arrears and current branches will be formed by the separation of the present fixed Establishment, together with any temporary Establishment now authorized into two bodies, each of which is to have a fair proportion of the more experienced Clerks.

The Head of each Office will then make a careful review of the amount of arrears to be disposed of, and form an estimate of the time in which such arrears may be cleared off with the Establishment at his command. He will also state what additional Establishment will, in his opinion, be necessary to enable the arrears to be cleared off by the close of the Current Official year.

Should the Establishment allotted to the current branch not be considered adequate to keep all business current, an estimate of the extra Establishment necessary to perform the duty is also to be submitted.

Each application is to be accompanied by a Tabular Statement, showing the portion of the present Establishment, with rates of pay to be allotted to each branch, and the number of additional hands with the rate of pay proposed for each.

No increase will be permitted to the salaries of the existing Establishments, but Heads of Offices may announce to the permanent Establishments that on the completion of the work in a satisfactory manner within the time specified above, those Members who have distinguished themselves by their zeal, energy, and devotion will be recommended for special reward or for permanent

advancement, and that a revision of the Office rates of salaries will be made so as to improve the position of individuals and encourage the deserving.

Whenever practicable the arrears branch of all large Offices will be placed under a separate Officer acting independently of the Officer in charge of the current duties.

Notices issued by the Post-Master of Calcutta.

ALL communications respecting change of address should be made to the Post-Master of Calcutta and not to the Post-Master General. Letters re-directed, whether delivered in Calcutta, or forwarded to some other Station, are taxed with "Forward Postage."

No. 2661.

The 19th September 1860.—As very many Letters on ordinary Post Office matters are addressed by the Public to the Post-Master General instead of the Post-Master, Calcutta, and as inconvenience is the result, it is solicited the practice may be discontinued, and the Post-Master be addressed on all matters of his Office, except when any party may wish to prefer complaint to higher authority.

ALL complaints requiring redress, such as overcharge of Postage, mis-sending or delay in the delivery of Letters, &c., must be made to the Post-Master-General, accompanied by the Envelopes of the letters referred to; the number of the Delivery Peon should always be stated.

No. 1027.

The 9th July 1859.—Parcels or Book Packets cannot be sent by Private Ships through the Post Office.

Notice.

THE Inland Postage on letters, &c., posted for despatch by the After-Packet must be prepaid. Such letters, &c., as do not bear the Inland Postage, or are insufficiently stamped with the After-Packet Postage, will be detained and forwarded by the next Steamer.

SPECIAL Notice is directed to the subjoined Clauses of Rules, the want of attention to which has occasioned the Post Office much inconvenience.

2nd.—A separate instruction will be required for every change of address, and no instruction will be attended to for more than three months after its receipt.

3rd.—Under Section XXIII. of Act XVII. of 1854, Forward Postage will be charged in addition to all other Postage due or paid thereon upon every letter without exception, which may be re-directed in any Post Office. For example, if a letter posted in Calcutta and addressed to Hooghly is, under instructions which may have been received from the addresser, re-directed in the Calcutta Post Office and sent to Burdickpore, Forward Postage will be charged in addition to the Postage which would have been due, had the letter been despatched to Hooghly according to its original address.

4th.—The practice of giving instructions to the Officers of the Post Office to intercept and re-direct letters, not only imposes much labor upon them, but in large Offices seriously retards the delivery and despatch of the Mails. A register of instructions regarding changes of address will be kept in every Post Office, but it must be understood, that it is impossible to guarantee that they shall be attended to except in the case of letters received for delivery.

LETTERS and Newspapers despatched to and from the United Kingdom by private Vessels are liable to the following rates of Postage, which must be pre-paid by Stamps:—

	Rs.	As.	Pi.
Letters not exceeding $\frac{1}{4}$ oz. in weight	0	4	0
Ditto exceeding $\frac{1}{4}$ oz. but not exceeding 1 oz.	0	8	0
And so on adding 8 annas for each oz. or fraction thereof which includes Inland Postage			

Newspapers not exceeding 4 oz. in weight, 1 $\frac{1}{2}$ or 8 pie must be pre-paid by Stamp, and no Inland Postage is required upon such papers.

Parcels conveyed by the above opportunity for the United Kingdom are liable to Letter rates of Postage.

Notice.

LETTERS arriving at the Presidency Towns by Mail Steamers will be immediately sorted for delivery according to the address alone, without any reference to instructions which may have been received regarding change of address; such changes will be left to be discovered by the Delivery Officers, and be corrected in the forward and unclaimed Departments of the Office.

Forward Postage will be charged in addition to all other Postage due or paid thereon upon every letter without exception, which may be re-directed in the Post Office.

Letters, &c., received by the Steamer will be delivered at the Window of the Post Office only to parties who have registered their names. Applications to the Post Office on the day of the Steamer's arrival to intercept and re-direct letters, &c., cannot be attended to, as they are found not only to impose much labour but seriously retard the delivery and despatch of the Mails.

UNDER the orders of Government, no fourth delivery of letters by the Post Office is allowed. Mails which are received by Steamers from Suez at so late an hour in the day as not to admit of the letters being taken out for delivery by 6 p. m. are detained till the following morning, but parties who have registered their names under the usual fee are entitled to receive their letters and Marseilles Newspapers so soon as the Mails are sorted, and which is generally about 2 $\frac{1}{2}$ hours after receipt of the Mail, at the Post Office.

Forward Newspapers.—Extra or Forward Postage is chargeable on every Newspaper re-directed at the Post Office of original address and forwarded to another Post Office.

No. 9391.

BANGHY Parcels are in future not to be specially registered, as the full address and weight of all such are registered in the Post Office, and receipts are granted to Senders if required. The Post Office Officials have therefore been directed, not to accept fees for the special registration of Banghy Parcels. Articles sent on Book Post rates are not registered unless a registration fee is paid. When therefore Books or Prints or other Articles of value are sent by Book Post, the Senders can register them by payment of the usual fee of 4 annas.

FINANCIAL DEPARTMENT.

No. 50.

Extract from the Proceedings of the Government of India in the Financial Department, under date the 2nd March 1861.

READ letter from the Officiating Civil Auditor, Fort William, No. 78, dated the 27th ultimo, with enclosures, regarding the allowances which Mr. Hampton, as a First Class Deputy Collector, Superintendent of Abkarry and Income Tax Collector, should draw during his absence in England on Medical Certificate.

RESOLUTION.—The Officiating Civil Auditor, Fort William, has ruled that, during his absence, in England on Medical Certificate, Mr. Hampton

should be restricted to an allowance of Rupees 350 a month, being a moiety of his salary as a First Class Deputy Collector, and should have no claim to any portion of the allowances received by him

* Should be Collector. as Superintendent of Abkarry and Income Tax Assessor,* on the ground that, "as a general rule, Public Officers are restricted to one substantive appointment; but if they are nominated to others these are regulated as local."

The Lieutenant-Governor of Bengal is of opinion that the allowance of Rupees 200 a month drawn by Mr. Hampton as Abkarry Superintendent is not a personal allowance but an allowance belonging to the Office; and that it should therefore be reckoned as part of the substantive allowances of Mr. Hampton's appointment. With regard to the allowance of Rupees 250 a month, drawn by Mr. Hampton in connection with the Income Tax, His Honor thinks it should not be included in the calculation of his absentee allowances, as it is of a temporary nature and should be paid to the Officer who acts for Mr. Hampton. His Honor however appears to have mistaken Mr. Hampton's position in respect to the Income Tax duties as he speaks of him as an Assessor whereas his appointment is that of Collector.

Mr. Hampton urges that he has a claim to the allowances of all three appointments.

The Governor General in Council observes that, with a view to a proper decision of this case, as well as all similar cases that may arise in future, it should be considered whether the Offices are so combined that they naturally go together, and whether, on one man leaving on sick leave, a single successor can fill them all. If, for instance, a man were receiving 500, 300 and 200 Rupees for doing the work of three Officers, which, if he left, had to be separated and paid by 500, 400 and 300 Rupees to three separate men, in such a case 500 should be looked upon as his salary and the extra 500 as a bonus to him personally, as long as he was able to discharge the work and no longer. But if a good man by energy and method can shew that three Offices costing 1,200 Rupees can be done by one man at 1,000 Rupees, and establish this so firmly that if he has to leave, the arrangement can be continued permanently, then he has a fair right to his sick leave allowance, calculated with reference to the whole 1,000 Rupees.

Mr. Hampton's case appears to His Excellency in Council to be one of the last mentioned class; nor does he consider Mr. Hampton's claim to be prejudiced by the circumstance of his appointment as Income Tax Collector not being precisely of the nature of appointments ordinarily looked upon as permanent appointments, seeing that it is likely to last as long as the Income Tax is levied.

ORDER.—Ordered that a copy of the Resolution be sent to the Officiating Civil Auditor, Fort William, in reply to his letter noted above, the original Papers received with his letter being returned.

Ordered also, that a copy of the Resolution be published in the *Calcutta Gazette* for general information, and for the guidance of the several Civil Auditors.

Subsequently it crossed the Ganges, and took part in the first Relief of the Residency; remaining in defence of that Post until it was finally relieved by the Force under the personal Command of the late Commander-in-Chief, Lord Clyde.

JUDICIAL (CRIMINAL) DEPARTMENT.

No. 177A.

Camp Muchlesukur, the 25th February 1861.

Notifications.—An examination of the Police Reports, which were submitted by the several Commissioners of Divisions during the past year, revealed the fact that the crime of robbery, by the administration of poisonous or deleterious drugs, was largely on the increase in these Provinces, and especially on the Grand Trunk Road; and the earnest attention of the Superintendent-General for the Suppression of Thuggee and Dacoity was directed to the subject.

2. More recently the Chief Commissioner of Oudh has brought to the notice of the Lieutenant-Governor that this evil has shown itself to an alarming extent in the Districts of that Province which lie on the left bank of the Ganges, opposite to Cawnpore, and has requested the co-operation of this Government in the suppression of the crime.

3. As special measures are required for the prevention and extirpation of this most dangerous crime, the Lieutenant-Governor has determined to entrust Captain Chamberlain, the Assistant to the General Superintendent for the Suppression of Thuggee for the North-Western Provinces and Oudh, with the investigation of all cases of this description which may occur within the limits of his jurisdiction.

4. Magistrates and all other Criminal Authorities are accordingly hereby required to report all such cases at once to Captain Chamberlain, as also all cases in which there may be reasonable grounds for presumption that the crime has occurred, although its commission may not be susceptible of absolute proof.

5. Persons apprehended as having been concerned in the crime of robbery, or attempt at robbery, by the administration of poisonous or deleterious drugs, will be forwarded by the Local Officer with the least practicable delay to Captain Chamberlain at Lucknow.
